Brief Description of Undergraduate Courses Taught: (Course Title – Code: Description)

Postgraduate

#	Course/Rotation Title	No./Code	Extent of Contribution (no. of lectures/Tutorials. Or labs, Clinics)
1	-		

Brief Description of Postgraduate Courses Taught: (Course Title – Code: Description)

1	Reading 2: This course provides students with an exemplary theoretical and practical framework for learning reading and vocabulary.
2	Grammar 1: This course is designed to introduce basic English language structures required for correct oral and written communication.
3	Listening and Comprehension: This course is designed to enhance a student's ability to understand spoken English effectively.
4	Writing Skills 2: The main objective of this course is to enable students to develop their academic writing and skills.
5	Listening and speaking: This course deals with listening and speaking skills. It contains dialogs and conversations. The main focus of this course is to improve students' self-confidence in expressing themselves orally and to gain practice in listening to various topics (in different social contexts) in English.
6	Conversation: This course is designed to help students develop effective spoken communication skills in the English language.
7	General English: This course is designed to develop students' English language skills, i.e., reading, writing, listening, and speaking, in preparation for their specialization in the English language and translation program.
8	Introduction to Linguistics: The course aims to introduce the students with the theoretical and practical aspects of the field of linguistics.
9	Applied Linguistics: This course equips students with the knowledge and skills to address linguistic issues in everyday life, educational settings, and various professional domains.
10	Morphology and Syntax: The course aims to develop the students' essential skills to analyze the structure of English words and sentences.
11	Vocabulary Building: This course is designed to help students expand their word knowledge and language proficiency.
12	English for Scientific communication: This course aims to develop the students' scientific writing skills.
13	Senior Project (Research): The main objective of the course is to enable students to practice a range of research skills through Writing a well-developed and well-structured academic research paper required for graduation.
14	Senior Project (Translation): This course enables students to apply translation theory, procedures, methods, techniques, and concepts while translating various types of genres.
15	Stylistics: This course delves into the intricacies of language, especially literary language, and how choices in vocabulary, grammar, and discourse structure contribute to the richness of communication and expression.
