

Basic Surgical Skills Workshop

Place of Activity

KFUH-Site1

Date of Activity

Saturday – 26/03/2022

Time of Activity

8:00 AM – 2:30 PM

Number of Attendees

28 Medical Students.

The Alumni Unit of College of Medicine in IAU and the General Surgery department in KFUH have organized a workshop about: “**Basic Surgical Skills**” on Saturday – 26/03/2022.

In the beginning, Dr. Salih Busbait presented a lecture about suture types theoretically to prepare the students for the practical part. After that, the students were divided into groups (3 students in every group), and they have rotated over 10 different stations to try and practice 10 different skills under the supervision of experienced doctors. The stations were:

1. Surgical Scrub
2. Trauma Approach
3. Surgical Instrument Handling
4. Airway Management
5. Wound Suturing
6. Chest Tube Insertion
7. Wound Care
8. Hands on Laparoscopy
9. Bowel Anastomosis
10. Basic Laparoscopy

In addition, the volunteered doctors have answered all the students’ questions regarding the stations particularly and about general surgery generally.

محمد الشريط، فاطمة آل سعيد، ساره السمن.
