Breast cancer radiosurgery chair in with the National Commercial Bank cooperation

On Monday 10/4/1443 AH
corresponding to 11/15/2021AD,
the Ministry of Education held the
Research Chairs Forum program
in the capital, Riyadh, where
Imam Abdulrahman bin Faisal
University participated in the
research forum.

Vision

Leadership in global institutions in the field of breast cancer, and brilliance as a distinguished edifice and a global reference.

Mission

Establishing a scientific environment that meets the elements and pillars to provide an integrated strategy for breast cancer with encouraging and stimulating creativity and innovation, enriching knowledge and serving the requirements of social development.

Objectives

- Supporting the University of Dammam to reach the ranks of the world's leading institutions in the field of breast diseases.
- Developing the capacity and efficiency of the center's employees.
- Providing optimal care for patients in the therapeutic aspects.
- Work to encourage conservative breast surgery in all hospitals in the region.
- Aspiration to make the university a reference for radiosurgical treatment of breast cancer.
- Connecting with the global community through mutual research and experiences.
- Develop training programs in the field of breast surgery and strive to keep pace with the rapid scientific developments.
- Promote clinical trials and cutting-edge research.
- Encourage participation in multicenter clinical trials
- Encouraging a generation of talented breast cancer research researchers
- Encouraging early detection of breast cancer by disseminating knowledge about conservative breast surgery in the community.
