A story !

- In 1968, George Land administered a creativity test to 1,600 five-year-olds (Land & Jarman, 1992). The test, which he had developed for NASA to identify innovative scientists and engineers, found that :

Great instructor. We hoped for longer time.

يعطيكم العافية

Enjoyed the lecture

Very organizable & perfect !

It's very good talk, i suggest in next time we do live example of innovative research idea creation

Very informative and inspiring

استفدت جدا وطلعت من جو المذاكرة والان اقدر ارجع بحماس اكثر طريقة اللقاء الدكتور مفيدة جدا الله يباركها في علمها وشكرا لكم على هذا البرنامج القيم

Excellent

An incredibly amazing and beneficial lecture, thank you to everyone who contributed to arranging this session!

Very helpful, thank you

Attractive and interesting. The topic is out of the box.

A new inspiring and attractive topic. Thank you.
