## About The Program

At the College of Business Administration, we offer two Master of Business Administration (MBA) programs: a coursework-based MBA with a specialization in coursework-based MBA with a dissertation. Both programs are designed to accommodate students with diverse career aspirations and industry interests. The MBA Healthcare Management track covers a comprehensive spectrum of healthcare-focused business subjects, including leadership in healthcare settings, strategic management, and health policy analysis. Unique aspects of the program include a focus on flexibility and practical application, empowering students to specialize in areas such as Managing Healthcare Organizations, Healthcare Quality and Safety, and Health Informatics. Our MBA program is carefully benchmarked against leading global MBA offerings, ensuring that our students receive an education of international caliber. This prepares them to excel in the ever-evolving healthcare sector, taking on challenges and leading innovations in healthcare management.
