Master of Business Administration
Risk Management
(MBA)

Program Duration & Structure MBA–Risk Management

About The Program

At the College of Business Administration, we provide two Master of Business Administration (MBA) programs: a coursework-based MBA with specialization and a coursework-based MBA with a dissertation in risk management. Both programs cater to students with distinct orientations in the job market and diverse career objectives.

The MBA Risk Management track encompasses a comprehensive range of business topics, including management, leadership, and strategy. It features unique aspects such as high flexibility and a focus on practical application. This enables students to specialize in their preferred management domains, such as applied risk management, risk and insurance, and risk financing and treasury management.

Our MBA program has been meticulously designed and benchmarked against leading MBA programs worldwide. This ensures that our students receive a world-class education, preparing them for success in the global business landscape.
