Dear Doctor,

KSA Programme Ambassador – Confirmation of Appointment

Thank you for your interest in the *KSA Programme Ambassador* role.

As outlined in the invitation, the Ambassador role compliments the support of the International Office in helping to respond to enquiries of prospective trainees as well as being a representative of those currently in training in the UK.

After much deliberation by all members of the UHB International Faculty, we are pleased to confirm that your application has been **successful**.

Given the interest and importance of such a role to incoming trainees, it was also agreed that it would be beneficial to recruit a number of Ambassadors spanning a variety of training specialties rather than a single role. This helps offer trainees with more specialty specific guidance, if appropriate, but also offers the benefit of sharing the duties of the role with your fellow Ambassadors.

The International Office will alert you to the names and details of your fellow KSA Ambassadors in due course.

The UHB Faculty and the International Office will value your input and feedback on any issues faced by incoming and current trainees. We will arrange regular meetings to ask for your feedback and will also keep you updated to incoming cohort names and specialties.

Please note that this role should not impact your training programme and progression - should any concerns arise within your training programme your status as an Ambassador will need to be reviewed by the UHB International Faculty.

Again – our thanks for your interest in this role and we look forward to working more closely with you in future on the development of our programme.

Yours sincerely,

Dr Philip Bright
IPGMTS Director of Studies,
Head of School of Medicine HEE WM
