# Monthly Summary of Patents Total Patents in May 2024

Issued 12 Patents

## Engineering

	Dr. Wael Mohamad ElDessouki Automated System for Enforcement of Aggressive Driving Laws	Future Economics US 11978341 B2 Original
-------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------	---------------------------------------------

## Engineering

	Dr. Nasir Ghazi Hariri - Eng. Ibrahim AlMadani - Eng. Ibrahim Osman Smart Actuator for Solar Applications (SASA)	Leadership In Energy & Industry US 11,976,641 B1 Original
-------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------

## Science

	Dr. Asma Mohammed Elsharif Water Purification Method with Nanocomposite Sorbent	Environmental Sustainability & Basic Needs US 11976152 B2 Continuation
-------------------------------------------------------------------------------------	------------------------------------------------------------------------------------	---------------------------------------------------------------------------

## Dentistry

	Dr. Jamal Naif Alwaked Dental and Facial Imaging Device and Method of Manufacturing Thereof	Human Health US 11980445 B2 Original
-------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------	-----------------------------------------

## Design

	Heba Nabil SAIF - Dr. Hala El-Wakeel - Nourah Almanaa - Nouf Altuwajjri - Asma Alhilal Shoe Organizer Unit	Future Economics US 11980286 B2 Original
-------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------	---------------------------------------------

## Engineering

	Prof. Fahad Ghallab Al-Amri System and Methods for Recycling Heat and Water in A Steam Press Machine	Leadership In Energy & Industry US 11982045 B2 Original
-------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------	------------------------------------------------------------

## Engineering

	Prof. Muhammad Saleem - Dr. Nawaf Blaisi Luminescent Concrete Product	Leadership In Energy & Industry US 11981608 B2 Continuation
-------------------------------------------------------------------------------------	--------------------------------------------------------------------------	----------------------------------------------------------------

## Engineering

	Prof. Cevat Yaman - Prof. Omer Aga Septic Water Treatment Method for Removing Carbonaceous and Nitrogenous Compounds	Environmental Sustainability & Basic Needs US 11981591 B2 Continuation
-------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------

## IRMC

	Dr. Muhammad Nawaz - Prof. Firdos Khan Method of Preparing Nanoparticles for Cancer Treatments	Human Health US 11980638 B2 Original
-------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------	-----------------------------------------

## IRMC Engineering

	Dr. Ahmed A. Maarouf - Prof. Khaled Abdelsabour Elsayed Solar Cell with Transparent Electrode	Leadership In Energy & Industry US 11984273 B1 Continuation
-------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------	----------------------------------------------------------------

## Science

	Dr. Asma Mohammed Elsharif Nanomaterial, Method of Preparing The Nanomaterial and Application Thereof	Environmental Sustainability & Basic Needs US 11987500 B2 Original
-------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------

## Science

	Prof. Abir Said Abdel-Naby - Dr. Sara Nabil Method of Making Substituted Imidazo[4,5-C]Pyrazoles	Environmental Sustainability And Basic Needs US 11,987,585 B2 Continuation
-------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------
