**Imam Abdulrahman Bin Faisal University (IAU) provides mentoring counselling and peer support programs to support students, staff and all faculties.**

**IAU also considers underrepresented groups of people and without any discrimination provides mentoring counselling support to them in all divisions like students, staff and all faculties.**

**Find below some of our services at IAU.**

# 1. Provision of Special Education Department by College of Education of IAU for Individuals with Special Needs

The screenshot shows the website for the Special Education Department at Imam Abdulrahman Bin Faisal University. The page features a navigation menu with options like 'About Us', 'Study with Us', 'Colleges', 'Research', 'Community Service', 'Campuses', 'Sustainability', 'Administration', 'University Hospitals', and 'Open Data'. The main content area is titled 'Special Education Department' and includes a sidebar with links to 'About', 'Dean's Message', 'Organizational Structure', 'Vice Deanships', and 'Departments'. The 'Departments' section lists: Curricula and Instruction Department, Education Management Department, Education Technologies Department, Educational Foundations Department, and Kindergarten Department. The main text describes the department's mission to improve services for individuals with special needs, aligning with Saudi Arabia 2030 vision goals. A 'Vision' section states the goal of preparing specialized professional teachers.

## Special Education Department in the College of Education of IAU for Individuals with Special Needs

As one of the highest goals of the vision of the Kingdom of Saudi Arabia 2030 is to raise the country to be a pioneering model at all levels, it was important to **raise awareness and attention to the individuals with special needs and enable them to engage in the community** to be able to contribute actively in the development and construction and accelerate the process . Hence, the **Department of Special Education at the University of Imam Abdul Rahman bin Faisal intended to improve the quality and quality of services provided to individuals with special needs** in order to **achieve excellence and uniqueness at the local and global levels in the field of special education**. This vision can be achieved by the presence of selected qualified faculty members with scientific and practical experience and who are equipped with the latest knowledge, experience and practices in the field of special education.

## Gifted students with Learning Disabilities

### Course Description

The course addresses a category that often does not receive sufficient attention and care: gifted individuals with learning difficulties. In this course, students will explore the concept of dual exceptionality and discuss the historical scientific literature related to this group. They will learn to distinguish between the characteristics associated with giftedness and those related to learning difficulties, as well as the best methods for identifying these individuals and assisting them in addressing their challenges in reading, writing, and mathematics. Furthermore, the course will cover ways to develop their talents.

## 4. Meeting hosted by IAU with the Deans of Admission and Registration in the GCC Countries

### IAU Hosts a Meeting for the Deans of Admission and Registration in the GCC Countries

Under the patronage of the President of Imam Abdulrahman bin Faisal University, Dr. Abdullah Al-Rubaish, the university, represented by the Deanship of Admission and Registration, will host a meeting for the Deans of Admission and Registration in the GCC countries next Thursday, in one of the hotels in Al-Khobar. **In this meeting, the second topic will address the admission of students with disabilities and the available specializations. It deals with the classification of disabilities in alignment with the considered classifications of the GCC countries. It addresses the procedures, mechanisms, and standards adopted in accepting students with types of disabilities that can be joined to university majors, and the impact of that on the outcomes. It also discusses the global experiences of the adaptations provided to disabled students, and the difficulties that universities face after accepting them, in addition to allocating special programs, curricula, and teaching methods for them or integrating them into available programs. The best experiences, practices, success stories, and supporting indicators can be mentioned as an example.**

<https://www.iau.edu.sa/en/news/iau-hosts-a-meeting-for-the-deans-of-admission-and-registration-in-the-gcc-countries>

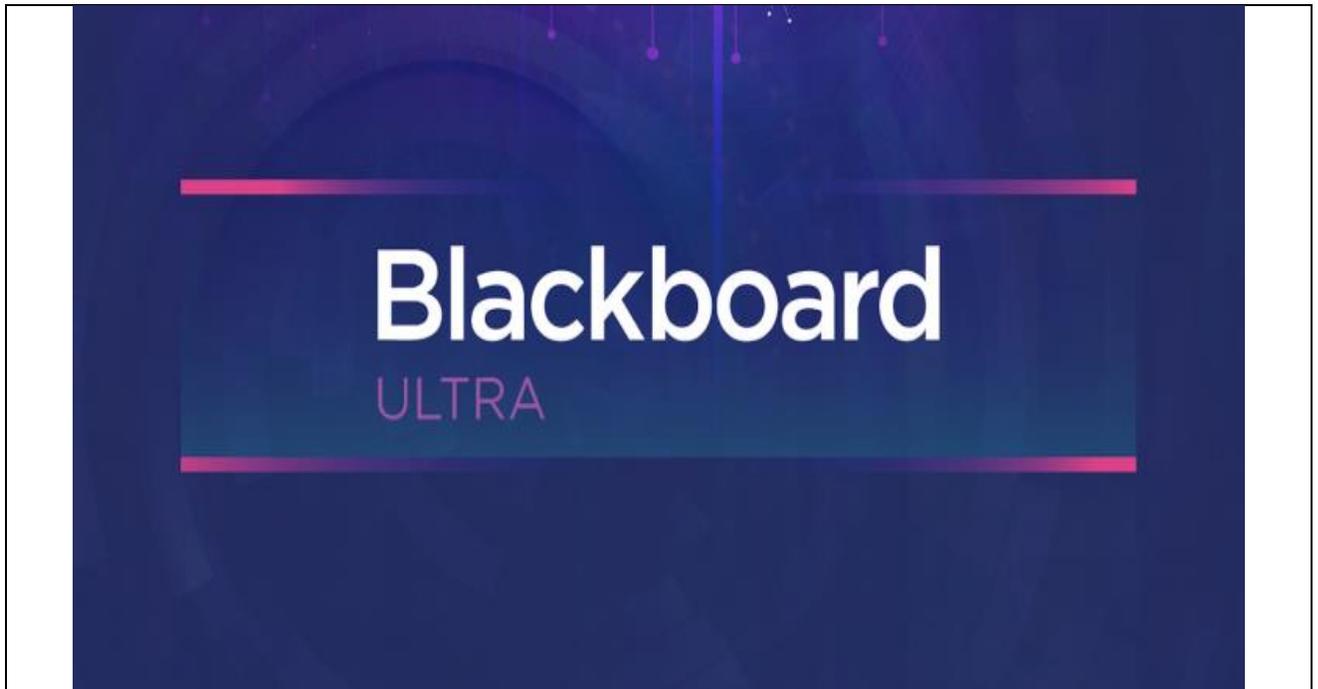

### IAU Hosts 19<sup>th</sup> Meeting for the Deans of Admission and Registration in the GCC Countries in 2023

Under the patronage of His Excellency the President of Imam Abdulrahman bin Faisal University, Dr. Abdullah Al-Rubaish, the 19th Meeting of the Deans of Admission and Registration at the universities and higher education institutions in the GCC Countries was launched. It was held on October 5, 2023, and lasted for a day in Dammam. In this meeting, **all the contributions and academic papers presented at this meeting are considered specialized academic consultations that universities are keen to benefit from. These papers focused on common interests and concerns in aspects related to university admission for talented, disabled, and international students and it is highly contributing to achieve the goals of the institutional and programmatic accreditations.** The second topic addresses the admission of students with disabilities and the specializations available to them. It discusses the classification of disabilities that is aligned with the considered classifications of the GCC Countries. It addresses the procedures, mechanisms, and standards adopted in accepting students with types of disabilities that can be joined to university majors, and the impact of that on the outcomes. It also discusses the global experiences of the adaptations provided to disabled students, and the difficulties that universities face after accepting them, in addition to allocating special programs, curricula, and teaching methods for them or integrating them into available programs. The best experiences, practices, success stories, and supporting indicators can be mentioned as an example.

## 5. IAU Transitions to “Blackboard Ultra” as a Step Towards Innovative Digital E-Learning

The Deanship of eLearning and Distance Learning successfully migrated and archived 100% of courses to the new system, fully trained and certified the technical team, and launched an extensive training plan that included 18 workshops for faculty members and 6 workshops for students, delivered in both Arabic and English. The Deanship also produced 38 diverse user guides — 34 for faculty and 4 for students — in addition to specialized guides supporting students with disabilities and practical guides on the use of AI tools integrated into the system.

## 9. IAU Admission Portal Information for Students with Disabilities

The screenshot displays the IAU Admission Portal interface. At the top, there is a navigation bar with the university's name in Arabic and English, and icons for home, education, globe, and currency. Below this is a large banner image of a modern university building with the text "Welcome To ADMISSION AND REGISTRATION DEANSHIP". A row of six green buttons provides quick access to: "Review Your Application", "Admission Results Score", "Frequently Asked Questions", "Calculating Ranking Score (Mouzana)", "Contact Us", and "Retrieving Password".

Below the banner, a section titled "Electronic Admission Portal" contains a red notification: "Imam AbdulRahman Bin Faisal University announces the ending of the admission for the academic year 1446 A.H.".

The main content area features a grid of links under the heading "Electronic Admission Portal". The link "Conditions and controls for admission of students with disabilities" is highlighted with a blue circle. Other links include: "Terms & Conditions of the Admission", "Last Admitted Ranking Scores for the past years", "Instructions for Application Submission", "Procedures After the Acceptance", "Admission Procedures", "Withdrawal From the Admission", "Admission Time Plan", "Professional Fitness Test Measures", "Tracks and Programs", and "Academic Number Inquiry".

At the bottom, a "Visual Guide" section offers five icons for: "Applying via PC", "Applying via Smartphones", "Finishing Electronic Procedures", "Guidelines and steps", and "Competitive Admission Mechanism".

Health Education Unit

Physiotherapy Department rendered services thru electronic referrals with clear diagnosis and precautions from the concerned dept. as needed. Physical Therapist will contact the referring physician for anything related to the patient.

The inpatient units that depend on Physiotherapy services are Critical Care Units (CCU, CCU), Orthopedic, Neurosurgery, General Surgery, Neurology, Internal Medicine and Pediatric.

The physiotherapy services may include relief of pain, improve the range of motion, improved the muscle power, training of activity of daily living, gait training and improving human performance.

Occupational Therapy is under the umbrella of physiotherapy department. It also considers the physical aspects of rehabilitation and motion, but it is focused primarily on enabling the patient to engage in the meaningful activities of daily life as seamlessly as possible. Occupational Therapists are dedicated to assisting patients in the long-term through therapeutic adaptations to their environments that fit in their specific functional limitations.

Physiotherapy Department staffed with highly qualified Physical Therapists, Occupational Therapists, and Physiotherapy Clinicians.

- Assistive walking aids

Occupational therapy performance area:

- Activity of daily living (ADL)
- Productivity (work)
- Leisure (play)

Occupational therapist assessed the following:

- Sensory motor component like muscles power
- Psychosocial component like social interaction
- Cognitive component like memory

Occupation therapy provides patient-centered service like but not limited to:

- Cerebral palsy
- Stroke
- Head injuries
- Erb's palsy
- Spinal cord injuries
- Down syndrome
- Mental health difficulties
- Upper limbs injuries

**Hours of Service Provision**  
8:00 am to 3:00 pm Sunday – Thursday.

**Workshop entitled “Speech and Language Disorders: Auditory-Verbal Rehabilitation”  
by KFHU of IAU**

The Speech and Language Unit of the Otorhinolaryngology Department of the King Fahd Hospital of the University (KFHU) [affiliated to the Imam Abdulrahman Bin Faisal University (IAU)], headed by the specialist Samira Ashour, organized the fifth workshop entitled “**Speech and Language Disorders: Auditory-Verbal Rehabilitation**” at the Meridian Hotel in Al Khobar, with the attendance of more than 100 specialists and teachers from @MOE\_EPR and various regions of the Kingdom. This workshop aims at joint cooperation between specialists, parents, and education in rehabilitating cochlear implant patients to achieve social and academic excellence. It was held under the sponsorship of Cochlear.
