1. Introduction

Imam Abdulrahman Bin Faisal University (IAU) have a strong commitment to meaningful education around the SDGs across the university, relevant and applicable to all students.

IAU offers courses related to sustainability and conducts various events, workshops, awareness programs, and exhibitions related to SDGs for student community.

Find below some of activities at IAU.

2. Courses/Subjects related to Sustainability offered at IAU

Description:

The following is the list of the courses under various programs which had embedded sustainability into its content offered by the University. The list also includes courses with sustainability under preparatory studies, and those that include the Sustainability in Practice Certificate as part of the core curriculum.

Total number of courses with sustainability embedded for courses running during 2023/2024: 637

IAU achieves 100% in the Field of Improving Energy Efficiency Consumption 2022

Imam Abdulrahman bin Faisal University obtained 100% in the scorecard for the year 2022 and the excellence award for the first category in the field of improving energy efficiency consumption, during a ceremony honoring distinguished government agencies in improving energy consumption for the year 2022, which was held by the Saudi Center for Energy Efficiency, in the presence of the Vice President for Administrative and Financial Affairs, head of the university's energy efficiency team, Prof. Dr. Abdulwahed Al-Mazrou, and many officials and representatives of government agencies. The university's win came for achieving 100% in the scorecard, which includes achieving levels of commitment in energy consumption after implementing a set of internal initiatives to improve energy consumption rates in all university facilities and buildings and university hospitals, including the application of the necessary standards to raise the efficiency of consumption, the adoption of the necessary models and guidelines, and the holding of technical workshops.

لماذا نحث على الترشيد من استهلاك الطاقة؟

- 01 للحفاظ على مصادر الطاقة واستدامتها
- 02 لتقليل الهدر في استهلاك الطاقة
- 03 لزيادة عمر الأجهزة المستهلكة للطاقة
- 04 لأثره على الصحة والبيئة

كما أن الترشيد سلوك لا يمس راحة الموظف وإنما يوقف الهدر من استهلاك الطاقة
