الموضوع: بشأن تفعيل مبادرة حاسوبك لا ترميه

سعادة عميد كليتي علوم الحاسب وتقنيتي المعلومات
السلام عليكم ورحمة الله وبركاته ، أما بعد...

إشارة إلى خطابكم رقم (١٩٤٢٢) المؤرخ في ١٧/٢/١٤٤٥ هـ ، بشأن تفعيل مبادرة (حاسوبك لا ترميه) بنسختها السابقة لعام ١٤٤٥ هـ بالتعاون مع جمعية ارتقاء .

وتأكيداً على ما جاء في قرار رقم (٦٦٨٠٨) المؤرخ في ١٤٤٤/٩/٢٠ هـ بشأن اشراف إدارة الشراكات المجتمعية على جمع التبرعات العينية والمبادرات المتعلقة بها.

عليه يسعدنا تجديد التعاون معكم لمتنسى لطلبة استكمال رحلتهم التعليمية وذلك على النحو التالي:

أولاً ، تاريخ الشعابتي

الفضل الدراسي	تاريخ بدايت الحملة	تاريخ نهايت الحملة	وقت النشاط	مدة الحملة
الاول	٢٠٢٢-١٠-٢٠هـ	٢٠٢٢-١١-٢هـ	١٢ - ٢ هـ	٤ ايام

ثانياً ، دور الجهات المشاركة في المبادرة

جمعية ارتقاء	إدارة الشراكات المجتمعية	كليتي الحاسب وتقنيتي المعلومات

“Don’t throw your computer” Initiative by IAU

Concerning the initiative “Don’t throw your computer”, Renewal of cooperation between Community Partnership Department of the College of Computer Science and Information Technology, IAU, and Irtiqa Association to enable students to complete their educational journey.

Imam Abdulrahman bin Faisal University launched the Mawhiba Academic Enrichment Program for the year 2024 under the slogan "We Rise to the Sky"

Imam Abdulrahman bin Faisal University launched the Mawhiba Academic Enrichment Program for the year 2024 under the slogan "We Rise to the Sky" with the participation of 236 male and female high school students, which will last for three weeks in the presence of the University's Academic Vice President Prof. Abdulwahed Hamad Al Mazrua, the head of the program at the university, Dr. Nasser Saud Al-Rayes, and the students' parents.

Imam Abdulrahman Bin Faisal University has launched the Star Leaders program for 2024, aimed at empowering promising leaders from high school students to develop their leadership skills.

Imam Abdulrahman Bin Faisal University has launched the **Star Leaders program** for 2024, aimed at empowering promising leaders from high school students to develop their leadership skills. The program lasts for two weeks, totaling 52 training hours. During the program, students will engage in various activities and apply skills that focus on independent learning, encouraging curiosity, discovery, experimentation, sharing talents, problem-solving, expressing opinions, teamwork, and decision-making. These activities aim to equip them with the necessary skills to achieve success in their lives and prepare them for the future.

2023-2024

#	Events	Type of Event	Description	Place/ Participants
1	Let's Make Green campaign by IAU	Awareness	Participation of female students of the Environmental Engineering Department of College of Engineering, Imam Abdulrahman Bin Faisal University, in the “Let's Make Green campaign” launched by the National Center for Vegetation Cover Development and Combating Desertification by planting 6,000 mangrove seedlings on the shores of the Arabian Gulf in Qatif Governorate.	Employees and Students
2	Lecture by Prof. Dr. Mohammed Al-Shahrani, KFHU, IAU on Plant Pests	Awareness	King Fahd Hospital of the University (KFHU) affiliated to the Imam Abdulrahman Bin Faisal University (IAU) represented by the Green Spaces Department, organized an awareness lecture entitled: “Common Plant Pests and Methods of Combating Them in Correct and Safe Ways,” presented by representatives from the National Center for the Prevention and Control of Plant Pests and Animal Diseases, WeqaaCenter.	Community members
3	IAU achieves 100% in the Field of Improving Energy Efficiency Consumption 2022	Achievement	Imam Abdulrahman bin Faisal University obtained 100% in the scorecard for the year 2022 and the excellence award for the first category in the field of improving energy efficiency consumption, during a ceremony honoring distinguished government agencies in improving energy consumption for the year 2022, which was held by the Saudi Center for Energy Efficiency.	Community members and delegates
4	“Earth Hour” – Global Environmental Event followed by IAU	Event	IAU followed the global environmental event “Earth Hour”. For this event, all unnecessary lights and appliances will be turned off for 60 minutes on 25 March 2023 (8.30-9.30 PM) for the sake of the Earth	IAU
5	Part of the dialogue session "Future Energy	Event	Hosted by Professor Dr. Fahd Al-Omari and in partnership with the Cultural Club, the session addressed important and enriching topics in the field of energy and its sources.	Community Members, Employees

	and 500 Working Days" by IAU			es, and Students
6	Meeting on Green H2 Energy: Is it a clean source?	Event	Under the patronage of His Excellency the University President, Prof. Abdullah Al-Rubaish “ Engineering Hackathon 2024 ”. To create solutions and achieve creativity in solving contemporary engineering problems, with the participation of 16 teams from various specializations.	Community Members, Employees, and Students
7	Involvement of Energy Engineering Program, IAU in Engineering Projects Exhibition	Exhibition	Under the patronage of His Excellency the President Imam Abdulrahman Bin Faisal University Prof. Dr. Abdullah bin Mohammed Al-Rabish, Vice President for Scientific Research and innovation, Prof. Dr. Fahd Al-Harbi, inaugurated the annual graduation projects exhibition for College of Engineering, by displaying 48 engineering projects in the specializations of biomedical engineering, energy engineering , construction engineering, environmental engineering, and transportation and traffic engineering. In the presence of the Dean of the College, Dr. Murad Al-Thabeti, faculty members and company representatives.	Community Members, Employees, and Students
8	A Scientific Visit by Students of the Renewable Energy Track to Gulf Laboratory to test Electrical Equipment	Event	The 2024 Academic Enrichment Program of Mawhiba Imam Abdulrahman Bin Faisal University (IAU) organized a scientific visit for students of the renewable energy track to the Gulf Laboratory for Testing Electrical Equipment (GCCELAB).	Students
9	Showcase on Diversity of Clean Energy Projects	Exhibition	IAU is more interested with the diversity of projects that it seeks to develop, grow and market, which improves its realistic presence.	Community Members, Employees

				es, and Students
10	Presenting a project on Solar Panel at Innovative Environmental Solutions Competition	Event	In the 2022 Innovative Environmental Solutions Competition at Sadara, with the project: Developing a smart and self-tracking system for solar panels that directs the panels to the sun's rays during the day without using an electrical energy source.	Community Members, Employees, and Students
11	IAU Engineering Students visited the Research Institute at KFUPM	Event	Students of the Engineering Design Principles track in the 2024 Mawhiba Academic Enrichment Program visited the Research Institute at King Fahd University of Petroleum and Minerals (KFUPM). The visit included an introductory tour of a number of laboratories, including energy storage laboratories (supercapacitors and batteries), energy conversion laboratories (solar cells), and the Sustainable Energy Systems Research Center.	Students
12	EcoConcrete Composition Competition	Competition	IAU with EcoConcrete is inviting students to participate in EcoConcrete Composition Competition to wonder about how to reduce CO2 emission induced from the manufacturing process of cement used in concrete.	Students
13	IAU invitation for Environmental Week Exhibition	Exhibition	The College of Engineering, IAU invited public and students to attend Environment Week Exhibition under the slogan "Your Environment Knows You"	Students
14	Environmental Week Exhibition by IAU	Exhibition	Part of the attendance of the Environment Week Exhibition held in the College of Engineering, IAU under the slogan "Your Environment Knows You"	Students
15	IAU Participation in the Meeting Organized by Environmental	Meeting	The College of Engineering, IAU had participated in a meeting organized by the Environmental Committee at Eastern Chamber on Sustainable Opportunities and Solutions to Environmental Problems for Industries in the Eastern Province.	Community members, Employees, and Students

	Committee at Eastern Chamber for Sustainability			
16	“Don’t throw away your computer” Initiative of IAU in cooperation with Irtiqa Association	Initiative	This initiative receives used computers and rehabilitate them to support students’ educational journey.	Employees and Students
17	“Don’t throw your computer” Initiative by IAU	Initiative	Concerning the initiative “Don’t throw your computer”, Renewal of cooperation between Community Partnership Department of the College of Computer Science and Information Technology, IAU, and Irtiqa Association to enable students to complete their educational journey.	Employees and Students
18	IAU Participation in the Middle East Water Week Conference and Exhibition	Exhibition	The Environmental Engineering section of Faculty of Engineering Imam Abdulrahman Bin Faisal University participated in the Middle East Water Week Conference and Exhibition and presented a number of projects aimed at treating water.	Community members, Employees, and Students
19	Visit of the Delegation of the Saline Water Conversion Corporation to IAU	Event	Part of the visit of the delegation of the Saline Water Conversion Corporation to Imam Abdulrahman Bin Faisal University, which included a tour of: 1) Research Center, Faculty of Science, 2) Faculty of Computer Science and Information Technology, 3) Faculty of Engineering	Community members, Employees, and Students
20	IAU in cooperation with the Saudi Water	Event	The Continuing Education Center is pleased to #Imam_AbdulRahman_Bin_Faisal_University In cooperation with the Saudi Water Academy. The announcement of the launch of “Generations	Students

	Academy for “Generations Summer Program”		Summer Program”. The Target group is Children from (7 years to 12 years).	
21	Field Visit to the Marine Pollution Control Department at Aramco by IAU Faculty and Students	Field Visit	I had the honor of organizing a field visit to the Marine Pollution Control Department at Aramco - Tanura Opinion. Many thanks to Aramco for allowing the future engineers to have this unique experience and wonderful organization.	Employees and Students
22	Participation of IAU Engineering College Students in the EnviroSpill Conference and Exhibition at Bahrain	Exhibition	Part of the participation of College of Engineering students of IAU in the conference sessions specialized in combating pollution through the EnviroSpill Conference and Exhibition, which was held in the Kingdom of Bahrain to learn about the latest technologies in combating oil spills under the patronage and attendance of His Excellency the Minister of Oil and Environment in Bahrain.	Community members, Employees, and Students
23	Environmental Trade Show 2024	Exhibition	Under the patronage of His Excellency the President of the Imam Abdulrahman Bin Faisal University, the Environmental Engineering department of the College of Engineering participated in the Environmental Exhibition and to follow up on the latest developments @EnvTradeshaw	Community members, Employees, and Students
24	IAU hosting the 6th National Computing Colleges Conference (NCCC 2024) under the slogan	Conference	Under the auspices of H.E. President of Imam Abdulrahman bin Faisal University (IAU) Prof.Dr./ Abdulla bin Muhammad Al-Rubaish, IAU represented by the College of Computer Science and Information Technology, the university will be hosting next Wednesday the 6th National Computing Colleges Conference (NCCC 2024) under the slogan (<i>Promoting Cooperation Towards Innovative and Sustainable Technological Future</i>) associated with the	Community members, Employees, and Students

	(Promoting Cooperation Towards Innovative and Sustainable Technological Future).		(eighteenth) meeting of deans of the computing colleges at Saudi universities on IAU campus in Dammam city for two days from 29 Shawwal- 1 Dhul Qidah 1445H corresponding to 8-9 May 2024; an elite of specialists on level of world universities and the scientific centers will be participating in the conference distributed into 7 workshops, 4 dialogue sessions, 6 main sessions and 33 speakers. The conference will be associated with the entrepreneurship projects and innovation competition, the sixth national programming contest, the Capture the Flag (CTF) competition as well as the entrepreneurial innovative projects poster fair.	
25	TCS Sustainthon Saudi Arabia	Competition	The Institute of Innovation and Entrepreneurship congratulates the “Al-Kindi” team from the Faculty of Engineering at Imam Abdulrahman bin Faisal University for being nominated among the top ten places in the TCS Sustainthon competition.	Community members, Employees, and Students
26	IAU signed a cooperation agreement with Dammam Airports Company	Collaboration	Imam Abdulrahman Bin Faisal University signed a cooperation agreement with Dammam Airports Company @DACOKSA in the fields of education, training, research and community service. The agreement was signed on behalf of the university by the Vice President for Development and Community Partnership, Dr. Nihad Al-Omair, and on behalf of the company by Mr. Mansour Al-Otaibi.	Dammam
27	IAU signed a memorandum of understanding with Flow Medical Company	Collaboration	Imam Abdulrahman Bin Faisal University signed a memorandum of understanding with Flow Medical Company in the fields of education, training, research and community service, the memorandum was signed by the university’s Vice President for Development and Community Partnership, Dr. Nihad Al-Omair, and the company’s Director of the Performance Excellence Department, Eng. Ahmed Al-Maghribi, in the presence of the Dean of the College of Engineering, Dr. Murad Al-Thabeti, and the Director of the Local and International Partnerships Unit, Dr. Sara Al-Dulaijan	Dammam

28	Imam Abdulrahman Bin Faisal University signed a memorandum of understanding with Bio-Standards Company	Collaboration	Imam Abdulrahman Bin Faisal University represented by College of Engineering, signed a memorandum of understanding with Bio-Standards Company. The university was represented in the signing by the Dean of the College of Engineering, Dr. Murad Al-Thabeti, and the company's managing partner, Mr. Ahmed Abdulrahman. In the presence of Dr. Tufail Al-Yousef, Director of Public Relations and Media, and Dr. Sarah Al-Dulaijan, Director of the Local and International Companies Unit. The memorandum aims to develop and enhance field training, and innovate advanced engineering solutions in the field of managing biomedical and clinical equipment and devices.	Dammam
29	IAU Organized Workshop entitled Sustainable Kingdom	Workshop	Under the patronage of His Excellency the President of Imam Abdulrahman Bin Faisal University and in the presence of the Vice President of the University for Development and Community Partnership, Dr. Nihad Al-Omair, #Community_Partnership_Department and the College of Engineering organized a workshop entitled: (Sustainable Kingdom) in cooperation with Saudi Aramco, at the College of Architecture and Planning	Employees and students
30	"We Rise to the Sky"	Enrichment program	Imam Abdulrahman bin Faisal University launched the Mawhiba Academic Enrichment Program for the year 2024 under the slogan "We Rise to the Sky" with the participation of 236 male and female high school students, which will last for three weeks in the presence of the University's Academic Vice President Prof. Abdulwahed Hamad Al Mazrua, the head of the program at the university, Dr. Nasser Saud Al-Rayes, and the students' parents.	High School Students
31	2024 Academic Enrichment Program of Mawhiba of IAU organized a	Enrichment program	The 2024 Academic Enrichment Program of Mawhiba #Imam_AbdulRahman_Bin_Faisal_University organized a scientific visit for students of the Encryption and Information Security track to the Robotics Academy.	Students of the Encryption and Information Security track

	Scientific Visit for Students			
3 2	Star Leaders program	Enrichment program	Imam Abdulrahman Bin Faisal University has launched the Star Leaders program for 2024, aimed at empowering promising leaders from high school students to develop their leadership skills. The program lasts for two weeks, totaling 52 training hours. During the program, students will engage in various activities and apply skills that focus on independent learning, encouraging curiosity, discovery, experimentation, sharing talents, problem-solving, expressing opinions, teamwork, and decision-making. These activities aim to equip them with the necessary skills to achieve success in their lives and prepare them for the future.	High School Students
3 3	Professional Fellowship in University Teaching and Learning (PFUTL)	Collaboration for Training program	On behalf of the faculty of #Dentistry, we congratulate Dr. Samit Badi, faculty member of the Department of Preventive Dental Sciences, and Dr. Sonali Sharma, faculty member of the Department of Biomedical Dental Sciences, for being awarded the Professional Fellowship in University Teaching and Learning #PFUTL. We also thank Dr. Fayyad Sayed. For his participation as a professional mentor in the Professional Fellowship Program at #ImamAbdulrahman_bin_Faisal_University Teaching and Learning offered by the Deanship of University Education Development in cooperation with the University of Turku, Finland	Faculty members
3 4	Orphan Mothers Empowerment Program "Tamkeen" by IAU	Empowerment Program	Under the auspices of Her Highness Princess Abeer bint Faisal bin Turki Al-Saud, Chairperson of the Board of Trustees of the Eastern Region Council for Social Responsibility, the College of Applied Studies and Community Service celebrated on Sunday evening, Dhu Qaddah 22, 1444, June 11, 2023, the graduation of the sixth class of the Orphan Mothers Empowerment Program "Tamkeen", held in partnership with the Charitable Society for Orphans Care in the Eastern Province (Bena).	Orphan Mothers
3 5	IAU Participation in	Exhibition	The Imam Abdulrahman Bin Faisal University delegation participants in the (49) Geneva	Community

	Geneva International Exhibition		International Exhibition of Inventions with five inventions, which will be held during the period 17-21 / April / 2024 AD.	members , faculty members and students
36	Community Awareness campaign “You see them as good” by Student club, IAU	Campaign	The Orthopedics Department (Pediatric Orthopedics Unit and the Department's Student Club) of King Fahd University Hospital, IAU is pleased to invite you to attend the opening of the awareness campaign entitled (You see them as good), which focuses on the most prominent physiological and pathological changes in children's bones, on Wednesday and Thursday, April 12-13, at the Villaggio Mall in Al-Khobar.	Community members , Specialists, faculty members and students
37	World Sight Day Celebrations by KFHU, IAU	Celebrations	Department of Ophthalmology At King Fahd University Hospital #Al Khobar #Imam_Abdulrahman_Bin_Faisal_University in cooperation with the Ophthalmology Club My campaign #WorldSightDay #Eye_pixel_awareness_day #IAU 📍 Al Rashid Commercial Complex @alrashid_mall	Community members , Specialists, faculty members and students
38	Breast Cancer Awareness Campaign by KFHU, IAU	Campaign	The director of #King_Fahd_University_Hospital launched for #Imam_Abdulrahman_Bin_Faisal_University Prof. Dr. Mohammed Al-Shahrani Awareness campaign right: “#Your_awareness_is_protected_and_your_examination_is_protective” In the @Khobar_citywalk complex, which was organized by the Surgery Department in cooperation with the Health Awareness Unit with the aim of spreading community awareness of the importance of early detection of breast cancer, in the presence of the Director of Medical Services at the hospital,	Community members , Specialists, faculty members and students

2022-2023

#	Events	Type of Event	Description	Place/ Participants
1	Afforestation Initiative Led by IAU	Awareness Campaign	Imam Abdulrahman bin Faisal University launched (Green University without Carbon Initiative) aiming to plant thousands of seedlings and trees with participation of IAU employees and students in Campaigns for mass afforestation in the university areas over Dammam, Khobar, Qatif and Jubail, to reduce carbon emissions, as the first initiative of its kind at the level of universities in the Kingdom, to consolidate the concept of sustainability inside campuses at the level of the local community.	Employees and Students

2	Exhibition and awareness workshops about environmental awareness in Environment week	Exhibition and awareness workshops	Imam Abdulrahman bin Faisal University organizes this event and It is participating in the activities of the Saudi Environment Week, which was launched under the generous patronage of His Royal Highness Prince Saud bin Nayef bin Abdulaziz Al Saud, Governor of the Eastern Province, under the slogan "Our environment is our Responsibility" organized by the branch of the Ministry of Environment, Water and Agriculture in Al Khobar Corniche. IAU wing displays patents obtained by university affiliates, including the ecological tree to produce electric power and air purification, in addition to a patent for use of green plants treated with nano-titanium oxide to get rid of air pollutants.	Community members and Specialists, IAU
3	Sustainable Partnerships Conference	Conference and Exhibition	IAU participated in the Sustainable Partnerships Conference and Exhibition held at Riyadh. It showcases its research products, patents, and some innovations at the Sustainable Partnerships Conference in Riyadh.	Local and International leaders, Decision Makers, Riyadh
4	Smart Mobility Service	Inauguration Function	The President of IAU inaugurated the pilot phase of the smart mobility service for generating clean energy inside the university campus by bicycles and electric scooters through	Al-Rakah campus, IAU

			(WAYZ) application, on Al-Rakah campus. To sustain this service, there are solar-powered plants, will be operated in the next stages.	
5	Advanced pharmaceutical services AT KFHU	Launching New service	The Department of Pharmaceutical Services at KFHU of IAU, launched a set of advanced technical services to provide the best services to patients to ensure the optimal use of drug in an effective and safe manner.	The Department of Pharmaceutical Services, KFHU, IAU
6	Department of Environmental Architecture at IAU Develop Wahat-Mada Housing	Development Program	The students of the Department of Environmental Architecture at College of Architecture and Planning of IAU participated in the development of the external spaces of the housing units of <i>Wahat-Mada in Dammam</i> , one of the projects of <i>Charity Society for Orphans Care (Bena'a)</i> in the Eastern Region in collaboration with Development Housing. Those also presented sustainable and modern design solutions that match the nature of the social, cultural and economic population in an area of approximately 21,000 square meters.	Students, Department of Environmental Architecture, College of Architecture and Planning, IAU
7	Patent for Clean Energy	Achievement	United States Patent Office registered a patent to the Associate Professor of Organic Chemistry at IAU, Dr. Asma Al-Sharif, in field of Clean Energy for her	IAU

			innovative method of producing nano-sorbent material consisting of carbon nanotubes grafted with acrylic acid and an acrylamide polymer.	
8	Consulting Center for Buildings Energy	Service	It is a body accredited by IAU Institute of Consulting Studies to deliver training and consulting services in field of engineering related rationalization of energy consumption. Its scope of work include: i) Training, education and workshops in the areas of sustainability, green buildings and energy conservation, ii) Energy efficiency studies and audits of existing buildings, iii) Environmental and indoor air quality studies of buildings.	Governmental Sectors Consultation offices and contracting companies Training institutions Housing and real estate appraisal sectors Individuals and architecture workgroups

2021-2022

#	Events	Type of Event	Description	Place/Participants
1	Celebrating World Meteorological Day	lecture	Connecting female students to the World Meteorological Organization as an entity specialized in climate, weather and water. It coincides with the launch of the United Nations Decade for the Study of Oceanography for Sustainable Development 2021-2030 - especially since the Kingdom has marine beaches on the Arabian Gulf and the Red Sea."	College of Arts, Dammam
2	Zaline City and reducing carbon emissions from the design stage	lecture	Educating students and engineers about the modern trend of building smart cities in the Kingdom, how to keep pace with the aspirations of the rational leadership in this field, and how building systems and materials that reduce carbon	College Architecture and Planning

			emissions are selected	
3	bioplastic workshop	lecture	An interactive training workshop to introduce bioplastics to the Future Enrichments Program. The workshop aims to introduce students to bioplastics and a practical application about it. The workshop took place on January 23, 2022	College of Designs
4	Hackathon space apps	Contest	The NASA International Space Applications Challenge is an annual global hackathon that serves as a program to incubate local innovations and participation. Participation in the scope of guidance and development of participants' ideas during the time period from 9/30/2021 to 10/2/2021	College of Designs

5	Contribute to afforestation of the university	Activity	Afforestation of the university under the name of green initiative without carbon	College of Nursing
6	Plant Physiology Infographic	Plant physiology	Awareness of society about the importance and benefits of plants in our lives environmentally, economically and healthily, and information on how to benefit from plants in a variety of ways, in a simplified and attractive way through the use of infographics.	In and around IAU
7	Environmental Poster Competition	Raising Awareness	Scientific posters about environmental projects in the initiative of a graduate of the Department of Biology	Department of Biology
8	"Shell your bag and clean your monastery"	Eastern clean initiative Program	The Eastern Clean initiative is implemented by the Eastern Province Municipality, with the participation of community members, under the slogan "Shell your bag and clean your	Eastern Province

			<p>monastery". Promote a culture of concern for the environment, to maintain the cleanliness of public places and reduce visual pollution, raise the culture of volunteerism and enhance the concept of solidarity between individuals and the spirit of citizenship through social responsibility.</p>	
9	Hand in hand for sustainable soil geography	Practical Training	<p>A systematic environmental activity in which fifth-level students seek to educate members of society, in particular students of the general education stages, about the importance of soil and the need to preserve and maintain it for its sustainability for future generations. Objectives: - To highlight the</p>	Students, and society

			geographical role in the field of soil protection. - Implementation of a field campaign to remove solid waste from the soil surface in open spaces in the metropolis of Dammam, Al-Ahsa and Jubail. -Proposing ways and means to preserve and sustain the soil in the Kingdom and disseminate it to members of the community.	
10	Reducing the electrical consumption of existing buildings	Workshop	A Workshop was conducted to to reduce the electric consumption in university's buildings	Faculty members and stakeholders
11	Tour to the city of Qatif	Raising Awareness	The students visited archaeological, historical and heritage sites in the city of Qatif, Tarout and Darin and provide awareness to the community "how to preserve the historical site"	The cities- Qatif, Tarout and Darin

12	Energy audit of an educational building	Practical Training: Field Visit	A group of course students is auditing energy in several buildings in the Eastern Province by studying energy consumption, making measurements, inspecting the building, and developing solutions and alternatives that contribute to rationalizing and raising energy consumption efficiency in the building.	IAU students at Eastern Province
13	Application about the environmental factors	Ecology basics	Types of Metrological Stations Metrological Instruments Soil Factor preservation on plant community	Department of Metrology, IAU
14	To protect our living environment	Biogeography	An awareness campaign directed to members of society about the importance of preserving living organisms (natural plants and wild animals) and preventing their deterioration in	Community at large

			the Kingdom of Saudi Arabia from negative human practices such as cutting, logging, grazing and overfishing in order to sustain them for future generations and keep them from extinction.	
15	Sea water and desalinated oceans	Awareness Campaign	An awareness campaign directed to all members of society about rationalizing the consumption of sea water and desalinated oceans and the importance of preserving it for its sustainability for future generations.	Community at large
16	Food and Drug Authority: Importance of Safety	Safety	Food and Drug Authority building in Dammam is an administrative office headquarters that is concerned with achieving the main objectives such as the safety and effectiveness of food for humans and animals and	Food and Drug Authority building in Dammam

			the safety of electronic products from their impact on public health	
17	Together for a sustainable environment	Environmental geography	It is represented in the students carrying out community activities to contribute to preserving the environment, such as awareness-raising - agriculture - hygiene and recycling	Community Service by Students
18	Public Lecture	Lecture	Delivering a public lecture for the College of architecture at Asalah University. The goal is to disseminate knowledge in the field of architecture and creating a link to implement measures of Sustainability.	Asalah University
19	Sustainability and green environment	Practical Training	Consultation and evaluation of graduation projects for University of Bahrain students for the purpose of exchanging experiences in	University of Bahrain

			the field of sustainability and green environment, among others	
20	Renewable and non-renewable resources	Awareness Campaign	The (Environmentally Friendly Cities) initiative aims to introduce secondary school students to how to deal with the surrounding environment (renewable and non-renewable).	Nursery and Secretariat of the Eastern Region
21	Covid-19 impact on Architecture and Urban design	Conference	Chairing sessions during the days of the conference, the sessions discuss topics on architecture and urban design, the impact of Covid 19 on it, sustainability and how to address the current situation	College of architecture and urban design
22	Importance of Sustainable Environment	Sustainability Awareness	Awareness week on the importance of the environment and how to maintain sustainability	Waterfront - Khobar Governorate
23	Saving Environment	Awareness week	Awareness week on the importance of the environment and how to save mother Earth	Waterfront - Khobar Governorate

24	Community and the necessity of Public parks	Community service projects	Honorary meeting and exhibition accompanying the systematic community service projects related to the design of public parks	IAU Rector and Her Highness, Chairperson of the Board of Trustees of the Eastern Council for Social Responsibility, and the cooperating authorities.
25	Smart buildings - The New Horizon	Strategies Identification	Working with experts and leaders from around the world to identify strategies to help shape the future of smart buildings that enhance health and well-being.	Open for all
26	Sustainability field - A Collab	Academic Collaboration	Collaboration of scientific research in the field of humanities in the scientific journal of the University of Tabuk on the scientific standards and foundations of the magazine and follow-up reforms with the researcher to reach the best possibility of publication in order to benefit scientific and academic and	University of Tabuk

			gain experience and beneficial exchange between universities in the Sustainability field	
27	Interior Design to Sustainable Designs	Interaction and delegation	The College of Designs receives a delegation from Al Fozan Holding Company to inaugurate and announce the "Mojim Watan" competition for the new session for faculty members and students in the Interior Design Department and explain the method of implementing Sustainability in designs	Al Fozan Holding Co.
28	Upcycled Smart buildings	Engineering consultation	Providing an engineering consultation to renew the exterior appearance of the Dammam model and choose the colors and designs that show it more beautifully and sustainably, suitable for all seasons.	College of Engineering and for all

29	Preserving the Environment - Know how	Awareness Campaign	Awareness of the importance of afforestation and how to preserve the agricultural environment	Public at large
30	Social Media Project	Social media strategy	The project is an introduction to the living creatures found in the Arabian Gulf and the presentation of these creatures on the social networking site (Twitter) by means of a hashtag. The target group is all segments of society participating in Twitter.	Public at large
31	Arabian Gulf - Saving the environment for the future	Training	A set of presentations and brochures with the aim of raising awareness and educating the internal and external community of the university on the most important issues and phenomena in the environment of the Arabian Gulf, and the most important living organisms that live in it	Internal and External communities of the university

32	Sustainable Materials in Malaysia	Conference	Presenting research articles at the 2nd International Conference on Design Industries and Creative Cultures for the paper entitled: Sustainable Materials in Malaysia: A Systematic Review on Academic Research and Application in Product Design Industry	IAU and University at Kuala Lumpur, Malaysia
33	Smart Cities Symposium	Conference	Participation in a conference on 4th Smart Cities Symposium, 2021, College of Engineering, University of Bahrain	University of Bahrain
34	Afforestation Campaign	Campaign	Participation in the afforestation of Al Rayyan Garden in Dammam, Community volunteer participation.	Al Rayyan neighborhood park
35	Knowing Marine environment	Raising Awareness	Introductory lecture on mangroves and their importance in the marine environment	Open for all

36	The NextGen Smart mosques	Competition	The College of Designs receives a delegation from Al Fozan Holding Company to launch and announce the Al Fozan competition for Smart mosque design for faculty members of the Interior Design Department and students, in two locations in Al Khobar	Specific sites for design in the city of Khobar, and the university
37	Preserving the forests - Why and how	Community Participation	Our participation in the recently launched initiative by the Ministry, which is to collect the seeds of mangrove trees for cultivation, increase the area of these forests and their propagation and identification, because of their great role in preserving marine life and their contribution to the breeding and nursery of fish, shrimp, crustaceans and	Tarut Island

			the life of species of birds.	
38	A Step further in Biodiversity	Community Participation	The community service aims to highlight the biodiversity in the Saudi environment for the college students and the community, and the contribution of the applied scientific students to achieve this goal by documenting the existence of the living organism, a plant/animal in the Saudi palm, by photographing it and documenting its location by specifying the global positioning system for the organism and symbolized by (GPS).	Community Service by Students
39	Preserving Living Organism	Scientific article	Review of a scientific article, "Preserving Living Organism"	College of Designs-Sage Publishers, UK

40	Envisioning Smart office	Practical Training	Designing the smart office space for the Faculty of Computer at the request of the Faculty	College of Computer Science and Information Technology
41	Exploitation of date palm waste and its use as sustainable additives for improving soils in Saudi Arabia.	Symposium	Participation in the presentation of a scientific paper in the global online symposium on science, sustainability, development, and environmental systems in Saudi Arabia 2021. The symposium will be held under the auspices of the College of Science, entitled "Exploitation of date palm waste and its use as sustainable additives for improving soils in Saudi Arabia."	Dammam College of Science
42	Imata Program	awareness Campaign	The College of Sciences and Human Studies in Jubail participates in the "Imata" program within the campaign "Al-Sharqiya is clean in all languages of the world", which is	North Jubail Corniche

			organized by the municipality of the eastern region	
43	Spatial narrative and Sustainable design	lecture	Presentation of a workshop on spatial narrative and Sustainable design	Zoom, College of Designs
44	Clean energy and Ecology	Course	Training course on Clean energy and understanding Ecology	distance training course
45	Reduce, Recycle and Reform	Awareness Campaign	One of the Eastern Region Municipality's initiatives, "The Eastern is Clean", under the slogan "Reduce, Recycle and Reform", as part of the awareness campaign on the importance of maintaining cleanliness.	Al-Murakibat neighborhood park
46	Blue carbon in UNESCO marine World Heritage	Energy efficiency	The first scientific assessment of blue carbon in UNESCO marine World Heritage sites in Arabic Language	Students, faculty and administrative staff, society
47	"Raskala"- Recycling Campaign	Raising Awareness	The credit for this initiative goes to the College of Design, yearly this campaign is carried out to	College of Design & IAU neighborhood

			raise the awareness about the recycling materials	
48	How to overcome and reduce environmental pollution	Exhibition	Objective: The chemistry of environmental pollution, how to overcome and reduce environmental pollutants, raise awareness about environmental pollutants and the green environment under environmental Chemistry	College of Science and Human Studies, Jubail
49	Anti-Smoking and Impact on Health and Environment	Awareness Campaign	No smoking campaign with slogan "Don't buy your death & Destruction to Earth"	Deanship of Community Services and Sustainable
50	Wastewater Reuse Technology	Seminar	Student Forum on: First MSc Student Seminar on Wastewater Reuse Characteristics	College of Engineering
51	Removal Wastewater Treatment Units	Seminar	Modelling of Activated Sludge and Nutrient Removal Wastewater Treatment Units Using STOAT	Environmental Engineering Department
52	2nd Energy Seminar	Seminar	Energy Efficient Appliances	College of Engineering

53	Used, or damaged Laptop Collection	Raising Awareness	Used Laptop collection, and providing awareness about the harms these machines gives to the environment if not disposed properly	College of Design in Dammam City
54	Environmental impact assessments (EIA), for all industrial sectors.	Practical Training Trip	IAU students took practical understanding at Al-Kalthomi Group for Environmental works about the environmental consultation in the field of environmental impact assessments (EIA), Air quality and emission monitoring, Health, Safety and Environmental Management, Waste management, monitoring and assessment for all industrial sectors.	Environmental Engineering Department
55	How to recycle unused items to produce usable items	Workshop	Recycling Workshop: Preparing and assisting in the implementation of a training workshop for students on how	Deanship of Community Services and Sustainable

			to recycle unused items to produce usable items	
56	Air quality consultation and engineering solutions	Workshop	The Air Quality Consulting and Engineering Office is part of the Integrated Environmental Solutions and Consultancy Center established by Imam Abdulrahman Bin Faisal University in 2020 and authorized by the Presidency of General Authority of Meteorology and Environment Protection (GAMEP).	Environmental Engineering Department
57	6th Environmental Contaminants and Food Safety	Workshop	The workshop discussed the core issues concerning food safety which is threatened by numerous contaminants, which can originate from environmental pollution, such as toxic metals and organic halogenated compounds; chemicals used	College of Applied Medical Sciences

			in the production of food, such as pesticides and veterinary drugs	
58	Competition for innovative work in designing a sustainable residential neighborhood	Competition	The Committee for Housing volunteering (SAMAYA) presented a competition for faculty members and students for innovative work in designing a sustainable residential neighborhood, taking into account the integrated organization and green spaces.	College of Architecture, university faculty, students and volunteers
59	Basic Component of Agriculture and farming	Practical Training	Providing training about the basic components of agriculture and farming to save water	Neighborhood of Qatif Region
60	A Green University without CO2	Workshop	Many events were conducted to achieve the initiative of a Green university including, planting trees, initiating E-scooters to reduce the Greenhouse gas emission	University faculty, students and staff

61	Solar Energy the best alternative	Workshop	A workshop is conducted to provide knowledge that solar power is a great way to reduce your carbon footprint and save the mother earth for future generations	Deanship of Community Services and Sustainable
62	Environment Caring by Planting Tree	Raising Awareness	Encourage environment caring, initiated by university President by planting tree followed by other stakeholder. In addition, the recording of planting activities using NABATIK platform, in cooperation with Ministry of Environment, Water and Agriculture, Eastern Province, Saudi Arabia	Ministry of Environment and University faculty, students and staff
63	Awareness Campaign "Waey"	Workshop	The Department of HIMT presented a workshop on (Handling medical waste in the University hospital) to support talented	College of Public Health

			students for the Future Enrichment Program	
64	Community Public health promotion campaign	Raising Awareness	The initiative aims to promote, improve, and preserve the health of students and the school community through implementing different awareness programs using different educational and educational methods	College of Public Health and the community
65	Proper nutrition, physical activity, and personal hygiene	Awareness campaign	A class activity that aims to educate school students about the environment and importance of proper nutrition, physical activity, and personal hygiene	College of Public Health
66	Water conservation technology	Workshop	The workshop was open for all which discusses the water conservation technologies covering all methods of conserving water through increasing water use efficiency, enhancing capacity to	Alumni Center

			retain runoff water, and eliminating water pollution.	
67	Energy Efficiency, a Global Crisis and role of the university	Workshop	The current energy crisis in Europe will have an impact on the operation of all over the globe, including universities in research, teaching and administration in the coming years	Alumni Center
68	Recycling water techniques a lecture for female Alumni and open for all	Awarenes Lecture	The lecture focuses on the the best water recycling processes one of them is Reverse osmosis or hyper-filtration, is the method of water purification that relies on the membranes' development technology.	Alumni Center
69	Solar energy over Carbon based energy	Workshop	The objective of the workshop to provide knowledge about, the shift to solar energy which will reduce energy and carbon intensities, it will minimize	Alumni Center

			the impact of the energy sector on the environment.	
70	Control of air and noise pollution	Awareness campaign	Various measures has been promoted and created awareness about the control of air and noise pollution which is harmful for humans as well as for the environment	Environmental Engineering and open for all
71	IAU participates in Earth Hour by turning off buildings' lights	Awareness campaign	Imam Abdulrahman bin Faisal University participated in the annual global event of "Earth Hour" by turning off unnecessary lights for one hour, from eight-thirty until nine-thirty in the evening on Saturday 16/04/2022; In order to contribute to the rationalization of energy consumption to confront global warming.	Whole university

72	Pharmacy and Toxicology conference (KSAPT 2021).	Conference & Competition	The 1st National Toxicology competition was held within the activities of the Kingdom of Saudi Arabia's Pharmacy and Toxicology conference (KSAPT 2021). Imam Abdulrahman bin Faisal University's team ranked first.	College of Clinical Pharmacy
73	"Our Environment is Our Responsibility"	Exhibition and Workshops	On "Environmental Awareness Day" various events were organized to raise awareness on the importance of preserving the environment, spreading environmental culture, consolidating quality of life goals, activating the role of individuals, institutions and various government agencies in preserving the environment and maintaining ecological balance in accordance with	University faculty, students, staff and community at large

			the objectives Vision 2030.	
74	Kingdom of Saudi Arabia's Pharmacology and Toxicology (KSAPT 2021) conference.	Conference and Competition	The 1st Drug Awareness Competition was held in the Kingdom of Saudi Arabia's Pharmacology and Toxicology (KSAPT 2021) conference. The College of Pharmacy of IAU Wins 3rd Place in KSAPT21's Drug Awareness Competition	College of Pharmacy
75	Marine Pollution and Control	Guest Lecture	Objective of the Lecture was " To develop the environmental management of a coastal zone identifying and evaluating the impacts on the sea caused by different industrial activities"	Deanship of Community Services and Sustainable & open for all
76	Preserving the ecosystem and biodiversity on the planet	Guest Lecture	The lecture discusses about the importance of healthy ecosystems that clean our water, purify our air, maintain our	Deanship of Community Services and Sustainable & open for all

			soil, regulate the climate, recycle nutrients, and provide us with food.	
77	Support renewable energy research, environment and exploit promising opportunities	Agreement and Cooperation	The Saudi Electricity Company has signed a Memorandum of Understanding (MoU) with Imam Abdulrahman Bin Faisal University in Dammam in the fields of renewable energy research and exchange experience in relation to sustainable development and environment.	IAU and Saudi Electricity Co.
78	2nd Sustainable Development in Desert Areas	Conference	The as a part of yearly conference was held 2nd Sustainable Development in Desert Areas in cooperation with An Nariyah district	IAU and An Nariyah district
79	Family and society's role in teaching the importance of protecting the environment.	Lecture	Family and society's play's vital role in teaching the importance of protecting the environment, various issue has been	Deanship of Community Services and Sustainable & open for all

			discussed and it generate the awareness amongst the participants of the lecture	
80	"Let the mankind look into his food"	Awareness Campaign	Identifying the following: 1. A healthy diet and its relationship with the functions of the human body 2. Nutrition and diseases 3. Impact of consuming Junk food, food coloring and flavoring, beverage, chemicals, fertilizers and additives	Deanship of Community Services and Sustainable & open for all
81	Preservation of marine life and vegetation at Khobar Beaches	Awareness Campaign	The awareness campaign objective was not only protection and restoration of species, populations, and habitats but also mitigating human activities such as overfishing, habitat destruction, pollution, whaling and other issues that impact	University, Alkhobar beaches

			marine life and habitats.	
82	"A Healthy you"	Competition	Walk for a better future, save fuel, save the environment	Deanship of Community Services and Sustainable & open for all
83	A threat to society	Raising Awareness	Polythene bags a threat to the society- Act now	Deanship of Community Services and Sustainable & open for all
84	Let us breathe - An Initiative to reduce Co2 by planting more trees	Awareness Campaign	Let us breathe - An Initiative to reduce Co2 by planting more trees	Deanship of Community Services and Sustainable & open for all
85	Nature is the best: Produce and preserve organic produce	Training	Encouraging local farmers to produce organic produce	Deanship of Community Services and Sustainable & open for all
86	waste water treatment	Seminar	A global summit to raise awareness on waste water treatment and promoting water conservation	Deanship of Community Services and Sustainable & open for all
87	Tell us your dreams	Awareness Campaign	Tell us your dreams - A land without pollutions	Deanship of Community Services and Sustainable & open for all
88	Why "Car pooling"	Awareness Campaign	Why "Car pooling". Lets know the unknown.	Deanship of Community Services and Sustainable & open for all

89	Cooperation in the field of Bio-Engineering	Cooperation Agreement	The deans of both the colleges discuss various topics for future collaboration in the field of Bio-Engineering, which will protect the environment	College of Chemicals and Materials , KFUPM & IAU
90	Energy, Environmental and Water Engineering	Awareness Campaign	A group of Al-Majidiya Secondary School students visited College of Engineering, in order to gain practical inside about the engineering specializations including Energy, Environment and Water.	College of Engineering & Majidiya Secondary School students
91	Sustainable and Expenditure Efficiency	Competition	IAU achieved first place on Saudi universities in practical excellence and third place in institutional excellence in the Authority for Expenditure Efficiency and Governmental Projects.	All universities
92	Educational Campaign on Saudi Green Initiative	Awareness Campaign	An awareness and educational campaign to support the Green Saudi	Faculty of Arts

			Initiative and its objectives are summarized as follows: Introducing the initiative (its objectives, plan), raising awareness of the importance of active participation in the initiative	
93	Spreading awareness within the community groups	Spreading Awareness	Agriculture is a symbol of giving and love and it is a real wealth, it gives us a lot of benefits and we must be filled with it to preserve and take care of it. Participation of eighth level students.	Faculty of Arts
94	"Eastern Clean"	Awareness Campaign	The participation of the students of the eighth level of the Department of Geography and Geographic Information Systems GIS Imam Abdulrahman bin Faisal University in the campaign "Eastern Clean" to maintain the cleanliness of the environment,	Faculty of Arts

			spread awareness and promote a culture of volunteerism.

10. Sustainability related Startups at IAU

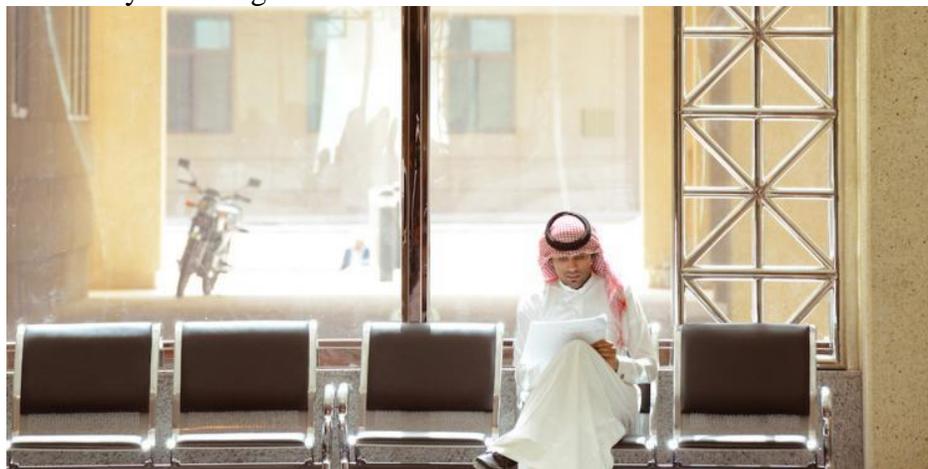

S.No.	Information
1	<p>Startup Name: Teaching and Learning Exhibition TLEX22 and Closing Ceremony of the Professional Fellowship in University Teaching and Learning PFUTL</p>  <p>In line with the National Development Vision, and within the framework of the Human Capability Development Program, the Deanship of Academic Development held the University Teaching and Learning Exhibition TLEX22 and the PFUTL Recognition Ceremony. His Excellency the President of Imam Abdulrahman bin Faisal University, Prof. Abdullah M. Al-Rubaish, inaugurated TLEX22 in its third edition, which was organized by the Deanship of Academic Development on Monday 22 Shawal 1443 AH as a tool for recognizing distinguished educational practices stemming from the reality of the Saudi context to support a culture of innovation. This exhibition is held annually in response to the rapid changes in the world, and in an effort to create and develop a competitive base according to the specifications of global markets, to embody efforts directed towards enhancing the alignment between the outcome of knowledge and educational practices, and the methodology of developing the professional competencies of the academic community. The exhibition highlights the projects and best practices by 55 fellows and professional mentors of faculty members from different colleges and 6 local universities within 4 tracks representing the scientific paths of the university.</p> <p>https://www.iau.edu.sa/en/news/teaching-and-learning-exhibition-tlex22</p>
2	<p>Startup name: Teaching and Learning Exhibition TLEX23 and Closing Ceremony of the Professional Fellowship in University Teaching and Learning PFUTL 2023</p>

His Excellency the President of Imam Abdulrahman bin Faisal University, Prof. Abdullah bin M. Al-Rubaish, opened the University Teaching and Learning Exhibition TLEX23 in its fourth year, which was organized by the Deanship of Academic Development, on Monday May 29, 2023. The exhibition presented innovative projects and practices for 72 fellows and professional mentors from different colleges and 10 local universities within 4 tracks representing the scientific paths of the university: health track, science and management track, engineering and designs track, humanities track and arts track.

3 Startup name: Apply for the 2024-2025 Cohort of the Professional Fellowship in University Teaching

Imam Abdulrahman Bin Faisal University invites university educators to apply for the 2024-2025 cohort of the Professional Fellowship in University Teaching and Learning program. The PFUTL is a pioneering, one-academic-year, professional program intended to advance teaching and learning knowledge, skills, and practice for

	<p>university educators. The program will lead to certification of Professional Fellowship from Imam Abdulrahman Bin Faisal University and University of Turku, Finland. https://www.iau.edu.sa/en/news/apply-for-the-2024-2025-cohort-of-the-professional-fellowship-in-university-teaching</p>
4	<p>Startup name: Lecture on Best Practices in Learning: Five Steps in Successful Learning Design</p>  <p>The Deanship of Academic Development at Imam Abdulrahman bin Faisal University, in cooperation with the University of Turku in Finland, held a conference on Thursday, February 29, 2024. An international lecture entitled <i>Challenges and Best Practices in Learning: Five Steps in Successful Learning Design</i>, attended by 255 trainees from various specializations from inside and outside the university. Presented by Dr. Satu Hakanormi, Director of Educational Support Services Development at Turku University, Finland, the lecture addressed challenges in teaching and learning and best practices through five steps to enable successful teaching and learning. https://www.iau.edu.sa/en/news/lecture-on-best-practices-in-learning-five-steps-in-successful-learning-design</p>
5	<p>Startup name: The university hosts the 6th National Computing Colleges Conference (NCCC 2024) under the slogan (Promoting Cooperation Towards Innovative and Sustainable Technological Future).</p>

Under the auspices of H.E. President of Imam Abdulrahman bin Faisal University (IAU) Prof.Dr./ Abdulla bin Muhammad Al-Rubaish, IAU represented by the College of Computer Science and Information Technology, the university will be hosting next Wednesday the 6th National Computing Colleges Conference (NCCC 2024) under the slogan (*Promoting Cooperation Towards Innovative and Sustainable Technological Future*) associated with the (eighteenth) meeting of deans of the computing colleges at Saudi universities on IAU campus in Dammam city for two days from 29 Shawwal-1 Dhul Qidah 1445H corresponding to 8-9 May 2024; an elite of specialists on level of world universities and the scientific centers will be participating in the conference distributed into 7 workshops, 4 dialogue sessions, 6 main sessions and 33 speakers. The conference will be associated with the entrepreneurship projects and innovation competition, the sixth national programming contest, the Capture the Flag (CTF) competition as well as the entrepreneurial innovative projects poster fair.

10 Startup name: IAU Organizes "Tales of Volunteering" Exhibition to Highlight its Voluntary Efforts

	<p>Imam Abdulrahman Bin Faisal University, represented by the Directorate of Community Partnership and the Supreme Student Council, organized the exhibition "Tales of Volunteering" at Ajdan Walk, Al-Khobar, on Wednesday and Thursday 21-22 December 2022 in the presence of the Vice President for Academic Affairs, Dr. Ghazi Al Otaibi, and a number of Deans and Vice Deans at the University. The exhibition was organized as part of the University's activities to celebrate Saudi and International Volunteering Day 2022 and as a platform for highlighting some of the University's efforts in the field of volunteering.</p> <p>https://www.iau.edu.sa/en/news/iau-organizes-tales-of-volunteering-exhibition-to-highlight-its-voluntary-efforts</p>
<p>11</p>	<p>Startup name: 265 Students Start their Academic Talent Program ‘Mawhiba’ at IAU</p>  <p>Imam Abdulrahman bin Faisal University launched the Academic Talent Program ‘Mawhiba’ 2023, for 265 male and female students who will embark in a scientific journey consists of 7 enriching tracks and to prepare them for this journey, the university held a meeting attended by the supervisors, trainers, volunteers, students, and their parents.</p> <p>https://www.iau.edu.sa/en/news/265-students-start-their-academic-talent-program-mawhiba-at-iau</p>
<p>12</p>	<p>Startup name: Space Biology Forum at Imam Abdulrahman bin Faisal University</p>  <p>20 research teams consisting of female students, graduates and faculty members in the Biology Department at the College of Science at Imam Abdulrahman bin Faisal University participated in the scientific forum entitled: "<i>Biology Biohackathon: Space Biology</i>", as part of extracurricular activities.</p>

	<p>The Dean of the College of Science, Dr. Amal Al-Otaibi, stated that this activity is one of the important activities at the college level because of its research aspects related to female students, appreciating the efforts of the head of the department and the female students who excelled in the forum. https://www.iau.edu.sa/en/news/space-biology-forum-at-imam-abdulrahman-bin-faisal-university</p>
13	<p>Startup name: IAU Signs an Agreement to Prepare Pharmacy Students for Labor Market</p>  <p>In the presence of His Excellency University President, Dr. Abdullah AlRubaish, Vice President for Academic Affairs, Dr. Ghazi AlOtaibi, and Dean of the Institute of Consulting Studies, Prof. Abdulkarim bin Khalaf AlHowaish, Imam Abdulrahman bin Faisal University, represented by the College of Clinical Pharmacy, signed a cooperation agreement with Al-Dawaa Medical Services Company on December 26, 2022.</p> <p>The agreement was signed by Prof. Esam AlAnsari, the Dean of the College of Clinical Pharmacy, and Mr. Mohammed Zoghbi, the Head of Human Resources and Administrative Affairs of Al-Dawaa Company.</p> <p>This agreement aims at activating the cooperation between the College of Clinical Pharmacy and the Company through developing means of education, training, employment as well as exchanging experiences consistent with Vision 2030. It also aims at preparing the students to keep pace with the needs of the labor market by practicing in actual work environments before graduation. Finally, it works towards opening prospects for research cooperation in the field of community pharmacies which will have a great impact on the beneficiaries of citizens and residents. https://www.iau.edu.sa/en/news/iau-signs-an-agreement-to-prepare-pharmacy-students-for-labor-market</p>
14	<p>Startup name: ETEC Signs Agreements to Accredite 52 Academic Programs for IAU</p>

C
On Wednesday 21 June 2023, the Education and Training Evaluation Commission (ETEC), represented by the National Center for Academic Accreditation and Evaluation "Etimad", signed accreditation agreements for (52) academic programs of Imam Abdulrahman bin Faisal University, at the university's headquarters in Dammam.

The agreement was signed by His Excellency the University President, Dr. Abdullah Al-Rubaish and by the Executive Director of the NCAAA, Dr. Muhammad bin Saleh Bashmakh. The agreements included the signing of (22) bachelor's programs and (30) master's programs.

These agreements come within the Framework Agreement that was concluded between the University and the Commission on December 28, 2021, to accredit (50) of the university's academic programs, and now two additional programs are appended to the agreement.
