

## Visiting between University Colleges

A student can study some courses in another college within university without transferring.

### Terms and conditions of visiting between the university colleges

- 01** A distance learning student is not accepted as a visiting student.
- 02** The visiting student must have studied at least one academic year in the college in which he/she was accepted.
- 03** A college approval of the student's visiting request must be obtained, and all the courses he/she will enroll in in the visited college must be reviewed for equivalency with the courses in his/her current study plan.
- 04** Approval of the visited college must be obtained based on available courses and vacant seats.
- 05** A university student is not allowed to study as a visiting student within the university in any of the courses of the joint first year program or the first foundation year in colleges.
- 06** The visit should be on the same academic level (e.g. between two bachelor programs).

### What is the outcome of visiting between colleges?

The grades of the courses studied in the visited college are calculated and added to the academic transcript of the visiting student.

The visiting request between the university colleges is submitted through Student Information System (SIS) according to the academic calendar announced on the university's website.

## Steps of requesting a visit between the university colleges

The courses are enrolled electronically after the approval of the visited college, and the student must ensure that there is no enrollment for the courses in his college after the approval of the visiting request
