

Withdrawal from the University

This service allows students to withdraw from the university and close their academic record at the university.

Steps to withdraw from the university

You will be required to visit the relevant offices listed at the bottom of the clearance request (library, security, student affairs, housing, college), and then the request will be approved by the Deanship of Admissions and Registration.

After the clearance is approved by the Deanship of Admissions and Registration, you can print the Clearance Letter from the system.

“Withdrawing from the university will result in losing your seat and the inability to reapply to the university again.”
